Subject: facial recognition

Facial recognition RFI (Request for Information) procedures:

All requests for facial recognition must be submitted via email to NOPD Intelligence at cic@nola.gov (this is the email utilized by NOPD Intelligence at The Criminal Intelligence Center)

Presently the requesting detective must utilize the "other" check box in the check list portion of the RFI form and write in "facial recognition" in the blank provided. We plan to add a facial recognition check box to this form.

The Louisiana State Fusion Center has a very similar RFI form. They also require a **second form** to their RFI form for facial recognition. This form explains how the photo submitted for facial recognition must be presented, explains how it was obtained and reason for facial recognition. NOPD Intelligence plans to utilize a similar form.

Most importantly it also explains that any result from facial recognition is an **investigative lead only and not to be considered a positive identification of any subject**. Any possible connection or involvement of any subject to the investigation must be determined

through further investigation and investigative resources. LA-SAFE reserves the right to deny any request for facial recognition.

below is a copy and paste of the form. The actual form is attached above:

Photograph notes:

- Must be an original image from the forensic source.
- Investigator cell phone screen shots will not be accepted.
- High quality front facing facial images will increase the results.
- Low quality side facing facial images will decrease the results.
- Must be a lawfully obtained image.

Investigation (Check all that apply)

At least one must be checked to qualify for a facial recognition search

- ☐ A reasonable suspicion that an identifiable individual has committed a criminal offense or is involved in or planning criminal (including terrorist) conduct or activity that presents a threat to any individual, the community, or the nation and that the information is relevant to the criminal conduct or activity.
- ☐ To assist in the identification of a person who lacks capacity or is otherwise unable to identify him- or herself (such as an incapacitated, deceased, or otherwise at-risk person).
- ☐ To assist in the identification of potential witnesses and/or victims of violent crime.

By signing below, said requestor understands the result of a face recognition search is provided by LA-SAFE only as an investigative lead and **IS NOT TO BE CONSIDERED A POSITIVE IDENTIFICATION OF ANY SUBJECT**. Any possible connection or involvement of any subject to the investigation must be determined through further investigation and investigative resources. LA-SAFE reserves the right to deny any request for facial recognition.

I know nothing can be done with the first picture, just added it for FYI. Second picture isnt much better.

This is the incident discription from rank on scene:

All,

This morning (3/21) at about 1:00am, four white males attempted to enter the station via the front doors on Royal all while filming on separate cameras. I observed the subjects approaching the station from the 400 block of Royal Street, and realized what was about to unfold. I met the subjects at the front door of the station in the lobby, and informed them due to the current health crisis, the station was closed for public access and asked the subjects to remain outside. Shortly thereafter, one of the subjects then opened the door and entered the lobby. I again instructed him the station was closed, and he exited without incident. For the health and safety of officers, I locked the station doors and alerted other officers in the district to be on alert. An LSP rank was in the station and also notified LSP personnel. The aforementioned actions were documented via my BWC under C-25225-20. The four subjects bounced around the front and side doors bantering their usual rhetoric for about 30 minutes, then they went walking around Bourbon Street, before departing. I believe at least one, maybe two, of the four subjects was the same subject(s) who was here in December, 2019.

They arrived and departed in a white Chevrolet Malibu with commercial tags tonight - likely a rental. I believe they travelled here for the weekend, and will likely make an appearance around the station again tomorrow, attempting to incite officers. Same pattern in December - Friday night initial appearance, with a return the following night. Please let your platoons aware of this situation. Perhaps a sign can be created and placed on the front door announcing the status of the station with respect to the current health pandemic.

At the end of the video footage, one of the subjects says "I have the sickness, you already got it". As with numerous accusations to provoke the officers.

If possible please check facial recognition of the attached photo. We are also trying but figured 2 is better than 1. Also Social media check if video taken has been posted to internet somewhere.

Thank you

Gus,

We can add the bulletin to our DIR for dissemination, but we are unable to use the photos submitted for facial recognition purposes. Our system requires a full face with clearly designated eye sockets. Your subject is wearing sun glasses and is too far from the camera to be clearly viewed.

Respectfully,

LA-SAFE Supervisors

GM,
Will this photo suffice for facial recognition?
Both forms are attached.

Good afternoon,

We just wanted to thank everyone for taking the time to meet with us. We hope that you found our information useful and look forward to working with each of you. Attached you will find an electronic version of our request form and explanation of databases, product lines, Fusion Liaison Officer (FLO) Application, and the additional forms required for facial recognition and FinCEN. Please feel free to share with others within your agency. Although we do not currently have any upcoming FLO classes scheduled, we will begin taking applications. As soon as we determine dates for our next classes, we will reach out to those who have submitted applications.

For those agencies that do not have governmental email addresses, we encourage you to obtain a Law Enforcement Enterprise Portal (LEEP) account and receive a free leo.gov email address through them. Below you will find a link to LEEP and an explanation of the services they provide and then the link to request an account. If you do create an account, please let us know so we can update your email address.

<https://www.fbi.gov/services/cjis/leep>

As a reminder, our hours of operation are Monday – Friday 0600-2300 hours. We have an on-call analyst after hours, weekends, and holidays for emergency situations. Our main number is 225-925-4192 and our 24 hour hotline is 800-434-8007. When requesting information please submit a completed copy of our request form to lasafe.requests@la.gov and to submit field interview cards, suspicious activity reports, Intel, threats, or other information please email lafusion.center@la.gov.

Thank you again for your time.

Respectfully,
LA-SAFE
